

Instructions for Authors

Submit this form along with the manuscript.

For manuscripts not accepted for publication, this copyright will become null and void.

Use Part A: Copyright Transfer for:

1. Work Made for Hire (for company or government contract):

Use Part A if you are an employee of a company or institution and your paper was prepared as part of your job. This means that the copyright of the paper belongs to your employer. If you, as author, sign this copyright form, MRS assumes that you are authorized by your employer to do so and that your employer has consented to all the terms and conditions of this form. If you are not authorized to transfer copyright of this paper, this form should be signed by someone so authorized.

If you are an employee of a company or institution and your paper was prepared as part of a government contract with that company or institution, it also is a work made for hire. You or another authorized individual from your company should sign Part A of this copyright form and check the appropriate box. This returns reproduction rights to the government when required for government purposes, while retaining MRS copyright protection with respect to reuse of the material by the general public.

2. Joint Authorship (non-government employees)

Use Part A if all co-authors are employees of a company or institution and work is performed on behalf of the company or institution or as part of a government contract with that company or institution. If the work is part of a government contract, check the appropriate box under Part A. If all co-authors are from the same company or institution, only one authorized signature is needed. If co-authors are from more than one company or institution, one authorized signature is needed from each company or institution.

If using **Part A: Copyright Transfer**, copyright, title, interest and all rights in the manuscript named within are hereby transferred to the Materials Research Society (MRS) effective when the manuscript is submitted for publication. The author(s) or the employer(s) in the case of works made for hire, retain the following rights:

1. All propriety rights, such as patent rights, other than copyright.
2. The right to use all or portions of the above paper in oral presentations or other works.
3. The right to make limited distribution of the paper or portion thereof prior to publication.
4. Royalty-free permission to reproduce the paper for personal use, or in the case of a work made for hire, the employer's use provided that (a) the source and MRS copyright are indicated; (b) the copies are not used in a way that implies endorsement by MRS of a product or service; and (c) the copies are not offered for sale.
5. In the case of work performed under U.S. or foreign government contract, MRS grants the U.S. or foreign government royalty-free permission to reproduce all or portions of the paper and to authorize others to do so for government purposes.

Use Part B: Government Employee Certification for:

1. Work by Government Employees

Use Part B if one or more authors is an employee of the U.S. or foreign government and the work was performed as part of his/her employment. Only one authorized signature is needed if all co-authors are from the same government organization. If co-authors are from more than one government organization, one authorized signature is needed for each organization. If co-authors are from non-government organizations, one authorized signature is needed for each organization in Part A.
